

## What we did in March!

I am happy to announce that Zaza was elected to be our class president for Social Studies. I was impressed with the number of students that ran for president, and the convincing speeches they gave!

The grade 2s dove right into their quarter 4 learning. They have been busy making models of the sun, describing its characteristics and how it effects Earth. The grade 2s have also been discovering that one story can be written in multiple versions. They have enjoyed reading versions of 101 Dalmatians, Goldilocks and the Three Bears, and the Three Little Pigs. After, we compare and contrast each story and decide which version was our favourite!

## What's happening in April!

Happy Thai New Year! Songkran celebrations will be happening in April. KPIS will be hosting an all day Songkran celebration at school on April 11th. Following that, will be our week holiday.

In Language Arts, the grade 2s will be focusing on types of poems and writing their own poems.

In Math, we will be learning about place value to 1000. They grade 2s will continue practicing addition and subtraction, now with three digit numbers.

In Science, will we continue exploring planets and thinking about outer space. They grade 2s will be keeping a journal about the night sky. If you could please take them outside in the evening, to help them observe what is happening in the sky.

In Social Studies, we be focusing on how countries solve problems.
