March Newsletter

Writing a play

At the National Science Museum

Dear Parents/Guardians,

This month we wrapped up 3rd quarter with our final exams. I am most impressed with the results of the exams. I look forward to meeting you at conferences.

This month we started a unit on fractions in math, electricity and magnetism in science, and country reports to learn more in depth about Southeast Asia and the Pacific. We are finishing up a unit on drama by turning a fairytale into play. Next, we will be learning about explanatory writing.

Celebrating good behavior with pajama day!

Experimenting with static electricity.

Important Dates:

Friday April 5 – House Day

Monday April 8 – No School

April 9-11 – Conferences

April 15 – 18 – Songkran Break

Friday April 26 – ½ Day

Happy Birthday to Kelly!
